

## Workers' Compensation Changes in NCCI Pure Rates

January 1, 2009

CIS uses Oregon pure rates developed by the National Council on Compensation Insurance as base rates, before adding expense loads and other applicable factors. This is the same rating basis all carriers in Oregon use. The rates are developed using claims experience in these classes. The chart below highlights the change in selected base rate from 2008 to 2009. While this should be helpful in budget planning for 2009-2010, the final rates will vary.

<b>Class Code</b>	<b>Class Description</b>	<b>Variance</b>
0050	Brush/Pest/Weed Control	6.50%
5191	Office Machine Installation, Inspection, Adjustment or Repair	-16.00%
